- Coffee bean tray
- Cupping bowl
- Cupping spoon
- Paper towels
- Water bucket
- Trash bin

<u>Restrictions on Brought-In Equipment</u>
All brought-in equipment must fit within the designated space on competition table. External power sources, including power bank and portable battery stations, are not permitted. Equipment with a built-in rechargeable battery is permitted, such as scales with an internal battery.

Prohibited Actions

Flavouring Prohibition:
The bringing in or use of any substance that directly alters the flavour of coffee is strictly prohibited.
This includes: flavouring, syrups, additives or any liquids other than water.

Organiser is not responsible for any loss of or damage to competitors' personal belongings.

In any case, Organising Committee determines that flavouring affects the brewed coffee, the competitor will be immediately disqualified.

Water Usage:
Competitor are require to bring their own brewing water.
Any form of water modification, including mineral adjustment, is permitted, provided that the modified water does not contain any flavouring.

Advance Declaration of Dripper
To ensure the smooth operation of the competition, competitor is required to declare in advance which CAFEC dripper they will use. Competitor are allowed to bring equipment like: coffee grinder (manual), kettle, scale and other extraction-support equipment, such as drip assist, chilling rocks, WDT, RDT ad etc.

Bringing any food items into the competition area will result in disqualification.

4.COMPETITION FORMAT

The competition will be conducted in a knockout format. Competition comprises three stages: Preliminary, Semi-final and Final.

Preliminary round: 64 competitors divided into 16 groups of 4 each, 16 competitors will be advanced to the Semi-Final

Wild Card Draw: It will be conducted after the Preliminary round. 8 competitors will be drawn to advance into semi-final

Semi-final round: 24 competitors divided into 6 groups of 4 each, only 6 competitors will be advanced to the Finals

Final round: 6 competitors divided into 2 groups of 3 each, winners will be selected through scoring system. Each group will compete under the Final Round rules described below.

5. JUDGES

From the Preliminary round through the Semi-Final Round, each match will be judged by one (1) team of three (3) judges. Judges will conduct a blind tasting in every round.

After the 6-minute competition time has elapsed, the three judges will conduct a blind cupping evaluation. Following the cupping evaluation, the judges will select their preferred cup by pointing to their choice. In the event of a draw, a representative judge from another judging team will conduct an additional evaluation. If a competitor fail to submit the required volume by the end of the 6 minutes time limit, the competitor will be disqualified.

On final round, competitors will be evaluated using a scoresheet scoring system by three judges.If a tie occurs in the final round, the winner will be determined through an additional evaluation by a separate representative judge.

6. FINAL ROUND

The Final Round will consist of 6 competitors, divided into 2 groups of 3 competitors.

Grinder Requirement:
All competitors in the Final Round are required to use the FM Grinder YODA. The FM Grinder YODA will be the designated official grinder for all competitors during the Final Round.
Competitors WILL NOT be permitted to use their own grinder in the Final Round.

Judging:
The Final Round will be evaluated using a scoresheet-based scoring system. Three (3) judges will evaluate the coffee using the designated scoresheet. The final ranking will be determined based on the scores awarded by the judges.
All other competition rules, including the competition time, minimum submission volume, permitted brewing methods, bypass rules, and prohibited substances, will remain the same unless otherwise specified for the Final Round.

7. RULES ON BREWED COFFEE VOLUME

The minimum required serving volume is 150 mL. Competitors may taste their own coffee using tasting cups. However, if the submitted volume is less than 150 mL, the competitor will be disqualified. Competitors are not permitted to taste the coffee of other competitors. All submitted coffee must be presented in its entirety to the judges.

Bypass pouring, adding water to the brewed coffee, is permitted. Judging will be conducted based on the final submitted coffee. During extraction, the addition of any substance other than coffee and the water is strictly prohibited. For example, competitors may not add ANY substances brought from outside the competition.

However, brewing multiple extractions at different temperature ranges and combining them into a single final submission is permitted. Multiple extractions are permitted within the competition time limit. There are no restrictions on the temperature of the submitted coffee.

8. COMPETITION TIME

The competition consists of:

- Preparation Time: 3 minutes
- Competition Time: 6 minutes

Competitors must submit their brewed coffee within the 6-minute competition time limit.

During the Preparation Time, Competitors May:

- Plug in equipment
- Set up their brewing station
- Preheat water
- Rinse the paper filter

During the preparation time, coffee grounds come into contact with water is strictly prohibited.

A tape line will be marked on the competition table on the day of the event. At the end of the 6-minute competition time, competitors must submit only the brewed coffee, placing it beyond the designated tape line.

Competitors may submit their coffee at any time after brewing is completed, provided that the submission is made within the 6-minute competition time limit. Immediately after submission, our Organising Committee will verify the submitted volume.
Judging will begin after the full 6-minute competition time has elapsed.

9. CLEAN UP

Competitors are requested to promptly clear their brought-in equipment after their competition concludes. The cleanup process is not subject to evaluation. Competitors will have 3 minutes for cleanup.

10. PRESENTATION AND SUBMISSION

There will be no presentation requirement.

This competition evaluates the taste of the brewed coffee only. Serving performance will not be evaluated. The submitted coffee must be poured directly into the cupping bowls provided for the judges.The Organising Committee will only transfer the cupping bowls to the judges' table for blind tasting. Judges' feedback may be provided after the competition upon request.

11. FINAL STATEMENT

These rules have been established to ensure fairness throughout the competition. We kindly ask all competitors to read the Rules & Regulations carefully and strictly adhere to them throughout the competition.

We look forward to welcoming all competitors to the CAFEC Brewers Cup 2026! Good Luck and have fun!
